Sanford City Commission Directs Staff to Proceed with Establishing a Moratorium on Medical Marijuana Dispensaries Within the City Limits

At the Monday, October 27th Commission meeting, the Sanford City Commission voted to direct City staff to proceed with establishing a moratorium on medical marijuana dispensaries within the City limits for a period of 6 months with a provision that the moratorium could be extended another 6 months should the City Commission deem it necessary. In the event that Amendment Two passes in the General Election on November 4, the City will not permit medical marijuana dispensaries within the City of Sanford until the moratorium has ended.

The moratorium will give the City valuable time to make the important decision on what regulations are necessary to protect the health, safety and welfare of City residents and visitors. The City Commission plans to officially vote on the moratorium at its December 15, 2014 Commission meeting.
