### City of Sanford launches “WebLink”

In an effort to enhance the Mayor and City Commission’s desire for openness and transparency in government, the City Clerk announces the launching of the Laserfiche Web Access system “**WebLink**” on the City’s website. **WebLink** enables access to official City documents 24 hours a day, 7 days a week.

By clicking on the Public Documents button located at the bottom right hand side of the front page of the City’s website, many City records can be searched and accessed.

Retrievable documents dating back to the 1870’s include City Commission Minutes (1877-2014), ordinances, resolutions, contracts, interlocal agreements, deeds, easements, budgets, and Special Magistrate orders. Also available are the City of Sanford Community Redevelopment Agency (CRA) minutes, contracts, agreements and minutes for all other City Advisory Boards and Committees.

The Planning & Development Services Department searchable documents include building permit cards, Historic Preservation Board agendas, minutes, and Planning & Zoning Commission agendas and minutes.

Cynthia Porter, City Clerk invites everyone to check out this new feature at [www.sanfordfl.gov](http://www.sanfordfl.gov).
