## ECONOMIC ENVIRONMENT

### Something For Doves and Hawks

In the first quarter, global markets experienced broad gains. The MSCI All Country World index, serving as a benchmark for global equity markets, increased by 7.4%. Additionally, the first estimate of Q1 2023 GDP from the Bureau of Economic Analysis increased at an annualized rate of 1.1%

However, despite the positive returns by domestic equity indices

and projected GDP growth, the first quarter proved to be a challenging period. The bankruptcy of Silicon Valley Bank was the major story of the quarter, marking the first substantial bank failure in over a decade. The

bank's failure was attributed to poor risk management, irresponsible underwriting, and the concentration of depositors in one industry. Analysts have viewed these problems as idiosyncratic, and the market largely shrugged, as investors concluded that the systemic risk was minimal after the federal government deposit backstop.

This incident highlights the broader issue that market participants have been facing. Regardless of one's position, there has been little difficulty in finding data or anecdotes to support either chosen

stance. The data has been contradictory, leading to difficulties in establishing a unified view of the market.

Interest rate doves, those who advocate for interest rates to be cut, point to the moderation in payroll growth, average hourly earnings, and job openings, as evidence that the Federal Reserve has done enough. Conversely, rate hawks, who believe the Federal Reserve should continue to hike rates, express concern about inflation and the tight labor market. In March, inflation rose slightly (0.1%), but the softening was mainly due to the food and energy categories, which continue to fluctuate significantly. Core inflation, which excludes food and energy, remained firm, rising by 0.4%, with the shelter category being the primary contributor to its stability.

Due to this ambiguity, the market's risk appetite has shifted daily. While some investors focus on the upside potential of a Fed policy pivot, others worry about high stock valuations. This oscillation of opinions and market pricing will continue until market participants reach a consensus on inflation, which should allow some stabilization in the market at large.

## DOMESTIC EQUITIES

### Positive Stress

The U.S. stock market saw positive returns in the first quarter of 2023. The Russell 3000, an index that measures the broad domestic market, increased by 7.2%, while the S&P 500, which measures the performance of large-cap companies, gained 7.5%.

The Russell Mid Cap, which covers mid-cap companies, increased by 4.1%, and the Russell 2000, which tracks small-cap companies, gained 2.7%. This was a reversal from last quarter, when small capitalization companies outperformed their larger peers.

Across all market capitalizations, growth outperformed value. This performance differential was led by the Consumer Discretionary and Information Technology sectors, which saw the highest gains.

Both increased more than 15%. The bulk of these gains were driven by the largest companies. 75% of the Russell 1000 Growth total return can be attributed to the top seven stocks by market cap: Apple,

Microsoft, Nvidia, Alphabet, Tesla, Amazon, and Meta.

On the other side of the coin, value had a tough quarter. Small-cap value was the worst performer of any of the sub-market styles. The performance drag was partly due to small-cap financials, which were impacted by the bankruptcy of Silicon Valley Bank and the subsequent fears surrounding regional banks.

Large cap companies continue to benefit from price multiple premiums, relative to their smaller peers. As of March 31, large cap equities, using the S&P 500 as a proxy, had a trailing P/E (price to earnings multiple) of 22. Small capitalization companies, using the S&P 600 as a proxy, had a trailing P/E of 13.

## INTERNATIONAL EQUITIES

### Modest Movement

International markets continued to see gains in the first quarter of 2023. The MSCI All Country World ex-US index, which tracks global markets excluding the United States, gained 7.0%.

In developed markets, the MSCI EAFE index returned 8.6%.

Europe performed well with France and Germany each returning more than 14%. Overall, Europe gained 10.7%. However, developed Asian equities held the index back, only returning approximately 5%. European financials

suffered under the same stress as their American counterparts. Credit Suisse had to file for bankruptcy, in an untimely end to a preeminent firm.

Emerging markets saw more modest gains of 4.0%. Mexico and Taiwan were the standout performers with gains of 20.4% and 14.8%, respectively. China, the index's largest country by weighting, also helped the index's performance, gaining

4.7%. Although U.S.-China relations have tensed over the last few

months, optimism around the re-opening of the economy and easing of the regulatory regime on the technology sector buoyed the overall market. India ended the quarter in negative territory as foreign investors fled due to concerns over economic growth and accounting concerns at one of the country's larger firms.

In a continuation from what was seen in domestic markets, Growth equities outpaced their Value peers across the broad universe, although the outperformance was much more pronounced in developed countries relative to emerging countries. The outperformance of Growth in developed markets was 4.9%, compared to 0.1% in Emerging Markets.

## BOND MARKET

### Income-ing

During the first quarter of 2023, fixed income markets delivered solid returns. The Bloomberg U.S. Aggregate Bond Index gained 3.0%, matching the performance of its international counterpart, the Bloomberg Global Aggregate index.

The yield on the 10-year U.S. Treasury declined to 3.5% by the end of March. Longer-term Treasuries outperformed shorter-term Treasuries as the yield curve flattened. Market participants are still watching the yield curve closely as near-

term rates remain at levels much higher than those seen at the long end. The yield curve has not been this inverted in decades.

Mortgage-backed securities (MBS) underperformed by 50 basis points on a duration-adjusted basis, with a return of 2.5%. Payment stress has been isolated in the commercial space, primarily in the office sector. Fixed rate mortgage payers are in a much better position than their floating rate counterparts.

The Bloomberg Barclays High Yield Index gained 3.6%. Defaults are still at near-historical lows as companies have had little problem making payments. However, the CCC credit tier underperformed the more credit-worthy tiers (BB & B) as it reacted poorly to the banking-induced market volatility.

## CASH EQUIVALENTS

### Cash is King

The three-month T-Bill returned 0.47% for the third quarter. This is the 60th quarter in a row that its return has been less than 75 basis points. Three-month treasury bills are now yielding 4.85%.

SANFORD POLICE OFFICERS' PENSION FUND  
SAWGRASS ASSET MANAGEMENT - DIVERSIFIED LARGE GROWTH EQUITY  
PERFORMANCE REVIEW  
MARCH 2023

## **INVESTMENT RETURN**

On March 31st, 2023, the Sanford Police Officers' Pension Fund's Sawgrass Asset Management Diversified Large Growth Equity portfolio was valued at \$5,507,099, representing an increase of \$398,343 from the December quarter's ending value of \$5,108,756. Last quarter, the Fund posted withdrawals totaling \$4,291, which partially offset the portfolio's net investment return of \$402,634. Income receipts totaling \$20,723 plus net realized and unrealized capital gains of \$381,911 combined to produce the portfolio's net investment return.

## **RELATIVE PERFORMANCE**

For the first quarter, the Sawgrass Asset Management Diversified Large Growth Equity portfolio returned 7.9%, which was 6.5% below the Russell 1000 Growth Index's return of 14.4% and ranked in the 77th percentile of the Large Cap Growth universe. Over the trailing year, the portfolio returned -5.9%, which was 5.0% above the benchmark's -10.9% return, ranking in the 20th percentile. Since March 2013, the portfolio returned 13.3% annualized and ranked in the 58th percentile. The Russell 1000 Growth returned an annualized 14.6% over the same period.

## **ANALYSIS**

Last quarter, the Sawgrass portfolio was concentrated in seven of the eleven industry sectors depicted in our analysis. Relative to the Russell 1000 Growth Index, the portfolio was overweight in the Communication Services, Consumer Staples, Financials, Health Care, and Industrials sectors. The Information Technology sector held the most weight but was less concentrated than the index. The Consumer Discretionary sector was underweight, while Energy, Real Estate, and Utilities were left vacant.

The portfolio underperformed the Russell 1000 Growth Index in six of the seven invested sectors. The biggest loss was suffered in the heavily weighted Information Technology sector which returned below the benchmark by a large margin. The underweighted Consumer Discretionary had the widest return deficit below the benchmark, with negative returns seen in Health Care. Combined with underperformance in Communication Services, Financials, and Industrials, the portfolio finished 650 basis points below its index counterpart.

SANFORD POLICE OFFICERS' PENSION FUND  
GREAT LAKES ADVISORS - LARGE CAP VALUE  
PERFORMANCE REVIEW  
MARCH 2023

## **INVESTMENT RETURN**

On March 31st, 2023, the Sanford Police Officers' Pension Fund's Great Lakes Advisors Large Cap Value portfolio was valued at \$5,283,431, representing an increase of \$56,383 from the December quarter's ending value of \$5,227,048. Last quarter, the Fund posted withdrawals totaling \$80,000, which offset the portfolio's net investment return of \$136,383. Income receipts totaling \$27,279 plus net realized and unrealized capital gains of \$109,104 combined to produce the portfolio's net investment return.

## **RELATIVE PERFORMANCE**

For the first quarter, the Great Lakes Advisors Large Cap Value portfolio returned 2.6%, which was 1.6% above the Russell 1000 Value Index's return of 1.0% and ranked in the 33rd percentile of the Large Cap Value universe. Over the trailing year, the portfolio returned -3.5%, which was 2.4% above the benchmark's -5.9% return, ranking in the 37th percentile. Since March 2013, the portfolio returned 9.9% annualized and ranked in the 67th percentile. The Russell 1000 Value returned an annualized 9.1% over the same period.

## **ANALYSIS**

By quarter's end, the Great Lakes portfolio was invested in ten of the eleven industry sectors utilized in our analysis. Compared to the Russell 1000 Value Index, the portfolio was overweight in the Communication Services, Consumer Discretionary, Financials, Health Care, Industrials, and Materials sectors, while underweight in Consumer Staples, Energy, Information Technology, and Utilities. The Real Estate sector was left unfunded.

Last quarter, the portfolio outperformed the Russell 1000 Value Index in six of the ten invested sectors. Notable victories include the overweighted Communication Services, Consumer Discretionary, and Industrials sectors, combining for a third of total concentration and each returning comfortably above the benchmark. Returns were dragged down by negative earnings in Consumer Staples, Energy, and Materials, however, these sectors did not hold enough stock to close the 160-basis-point surplus over the index counterpart.

SANFORD POLICE OFFICERS' PENSION FUND  
GW&K - SMALL CAP CORE  
PERFORMANCE REVIEW  
MARCH 2023

## **INVESTMENT RETURN**

On March 31st, 2023, the Sanford Police Officers' Pension Fund's GW&K Small Cap Core portfolio was valued at \$2,843,552, representing an increase of \$35,570 from the December quarter's ending value of \$2,807,982. Last quarter, the Fund posted no net contributions or withdrawals, while posting \$35,570 in net investment returns. Since there were no income receipts for the first quarter, the portfolio's net investment return was the result of net realized and unrealized capital gains totaling \$35,570.

## **RELATIVE PERFORMANCE**

During the first quarter, the GW&K Small Cap Core portfolio gained 1.5%, which was 1.2% below the Russell 2000 Index's return of 2.7% and ranked in the 88th percentile of the Small Cap Core universe. Over the trailing twelve-month period, this portfolio returned -6.1%, which was 5.5% above the benchmark's -11.6% return, and ranked in the 38th percentile. Since March 2021, the portfolio returned -3.2% per annum and ranked in the 51st percentile. For comparison, the Russell 2000 returned an annualized -8.7% over the same period.

## **ANALYSIS**

At quarter end, the GW&K Small Cap Core portfolio was invested in ten of the eleven sectors in our analysis. Relative to the Russell 2000 Index, the portfolio was overweight in the Consumer Discretionary, Health Care, Industrials, and Materials sectors, while underweight in Consumer Staples and Energy. The Communication Services sector was left vacant and the remaining sectors closely matched their index counterparts.

Last quarter, the portfolio underperformed its index counterpart in six of the ten invested sectors. The poorest performing sectors were Financials and Health Care, both underperforming the benchmark with negative returns and combining for a third of total concentration. Information Technology also underperformed, while Energy had the widest margin below the benchmark. The overweighted Consumer Discretionary sector helped curb further losses, but not enough to close the 120-basis-point deficit against the Russell 2000 Index

SANFORD POLICE OFFICERS' PENSION FUND  
FOREST INVESTMENT ASSOCIATES - GROWTH & VALUE PARTNERS, LP  
PERFORMANCE REVIEW  
MARCH 2023

## **INVESTMENT RETURN**

*This account was funded with an initial contribution of \$12,910 in September 2015. However, a material portion of the committed capital was not allocated until April 2016. Performance for those initial months, based on a relatively minor balance, would be non-meaningful to report, and could potentially distort cumulative returns going forward. For this reason, we have moved the performance start date to March 31, 2016. All data and effects from prior to that date are still captured and reflected in the composite portfolio.*

*An updated statement was unavailable at the time of this report. Performance is based on a market value estimation provided by Forest Investment Advisors.*

On March 31st, 2023, the Sanford Police Officers' Pension Fund's Forest Investment Associates Growth & Value Partners, LP portfolio was valued at \$1,812,470, representing an increase of \$41,357 from the December quarter's ending value of \$1,771,113. Last quarter, the Fund posted withdrawals totaling \$3,771, which partially offset the portfolio's net investment return of \$45,128. Since there were no income receipts for the first quarter, the portfolio's net investment return figure was the product of net realized and unrealized capital gains totaling \$45,128.

## **RELATIVE PERFORMANCE**

During the first quarter, the Forest Investment Associates Growth & Value Partners, LP account returned 2.5%, which was 0.7% above the NCREIF Timber Index's return of 1.8%. Over the trailing year, the portfolio returned 12.1%, which was 0.8% above the benchmark's 11.3% return. Since March 2016, the Forest Investment Associates Growth & Value Partners, LP portfolio returned 4.5% per annum, while the NCREIF Timber Index returned an annualized 5.0% over the same time frame.
