## ECONOMIC ENVIRONMENT

### Sentiment Shift

Investors entered the second quarter with heightened concerns about the possibility of a recession. However, as the quarter progressed, market participants largely became optimistic that the bear market had come to an end. The MSCI All Country World index demonstrated a substantial rise of 6.4%, resulting in a year-to-date gain of 14.3%.

Furthermore, there are positive indications of economic growth, with the first estimate of Q1 2023 GDP from the Bureau of Economic Analysis increasing at a rate of 2.4%.

Despite these encouraging signs, uncertainties persist. While inflation appears to be subsiding and corporations have largely surpassed their modest earnings expectations, the Federal Reserve remains cautious, warning of potential future rate hikes and expressing the belief that inflation has not yet been fully tamed.

As we embark on the third quarter, market outlook and sentiment are notably more positive than they have been in over a year. Nonetheless, it is essential to remain vigilant and monitor certain situations. For instance, the status of the debt ceiling is yet to be determined and could potentially impact the markets. We continue

to navigate challenges, symbolized by the metaphorical "wall of worry."

The economy and labor market have shown impressive resilience, but uncertainties persist. Labor unions are advocating for a greater share of profits amid corporations recording record earnings, and their willingness to strike poses potential risks, particularly in critical sectors like trucking and logistics.

Moreover, although inflation is receding, the effects of the Federal Reserve's unprecedented rate hikes on the economy are still uncertain. Residential real estate markets, which were initially expected to decline, have remained robust, but any downturn could rapidly impact consumer price indices.

Finally, the restart of student loan payments after a pause of over two years is a possible headwind that could influence the economy. Rising credit card debt and its potential impact on consumer budgets and discretionary company earnings need to be carefully considered. Monitoring these developments will be crucial in maintaining a comprehensive understanding of the economic landscape.

## DOMESTIC EQUITIES

### Building Momentum

The U.S. stock market continued to build off the first quarter's strong momentum and once again saw gains in the second quarter of 2023. The Russell 3000, an index that measures the broad domestic market, increased by 8.4%, while the S&P 500, which measures the performance of large-cap companies, gained 8.7%.

The Russell Mid Cap, which covers mid-cap companies, increased 4.8% and the Russell 2000, which tracks small-cap companies, gained 5.2%.

The tech-heavy Nasdaq gained 13.0% in the second quarter and had its best first half to start the year, up 32.3% as Information Technology was once again the best performing sector, up 17.2% year to date. Consumer Discretionary and Communication Services also had strong quarters, up 14.6% and 13.1% respectively, as the big seven companies continued to outperform. Apple, Microsoft, Nvidia, Alphabet, Tesla, Amazon, and Meta contributed

more than 70% of the S&P 500's return in the second quarter. All in all, nine of the 11 GICs sectors saw positive returns with only Energy and Utilities finishing in the red, down -0.9% and -2.5%

respectively.

Growth stocks once again outperformed value stocks across all market capitalizations, with the largest spread in large-cap stocks. The Russell 1000 Growth finished the second quarter up 12.8% vs. 4.1% for the Russell 1000 Value, an 8.7% difference. Small cap value stocks, as measured by the Russell 2000 Value, were once again the worst performer of any of the sub-market styles. The

index suffered in particular from an approximately 25% exposure to small-cap financials, a sector that once again saw a negative return as fears continue to linger around regional banks. Regarding valuations, the gap continues to widen between large-cap companies and small-cap companies. As of June 30<sup>th</sup>, large-cap equities, using the S&P 500 as a proxy, had a trailing P/E (price-to-earnings multiple) of 23.5 while small-cap companies, using the Russell 2000 as a proxy, had a trailing P/E of 13.0.

## INTERNATIONAL EQUITIES

### Chugging Along

International markets continued to see gains in the second quarter of 2023, but at a slower rate than the first. The MSCI All Country World ex-US index, which tracks global markets excluding the United States, gained 2.7%.

In developed markets, the MSCI EAFE index returned 3.2%. The

Far East was the strongest region, boosted by Japan's 6.4% return. The country's stock market hit its highest level in 33 years, driven by continuous buying from foreign investors since April and ongoing

expectations of corporate governance reforms and structural shifts in the macro economy. European stocks showed moderate gains

with France, Germany and the UK all returning between 2 and 4%. Recent data showed that the eurozone experienced a mild recession over the winter, with GDP declines of -0.1% in both Q4 2022 and Q1 2023.

Emerging markets delivered a small gain (1.0%) over the quarter. Eastern Europe was the top region in the index at 20.3%, due to

the anticipation of rate cuts as inflation eased, beginning with Hungary's cut in June. Brazil was also a top performer, returning 20.8% amid easing fiscal policy concerns, and a better-than-expected Q1 GDP print. China, the

index's largest country by weighting, tempered overall performance with its -9.7% return. Tensions between the US and China were a contributing factor, as were concerns about China's economic recovery.

## BOND MARKET

### Safety is an Illusion

It was a mixed second quarter for bond investors. Funds sensitive to interest rates, such as long government and intermediate core bonds performed poorly, while lower-quality assets saw some gains. As inflation expectations fell, so did long-term yields.

The Bloomberg U.S. Aggregate Bond Index lost 0.8%, while its international counterpart the Bloomberg Global Aggregate Index fell 1.5%.

The yield on the 10-year U.S. Treasury rose to 3.8% by the end of June. Expectations of another rate hike by the Federal Reserve to tame stubbornly high inflation helped push the yield curve to its deepest

inversion since 1981. Rate futures markets reflect a greater than 80% chance of a quarter-point hike in July, though there is much less conviction the Fed will proceed beyond that.

The Bloomberg Barclays High Yield Index gained 1.7%. Although investors retreated from credit-sensitive sectors as they braced for a recession, high yield bonds outperformed once again.

## CASH EQUIVALENTS

### Cash Matters Again

The three-month T-Bill returned 0.77% for the second quarter. This is the first time in 61 quarters that its return has been more than 75 basis points! Three-month treasury bills are now yielding 5.16%.

SANFORD POLICE OFFICERS' PENSION FUND  
SAWGRASS ASSET MANAGEMENT - DIVERSIFIED LARGE GROWTH EQUITY  
PERFORMANCE REVIEW  
JUNE 2023

## **INVESTMENT RETURN**

On June 30th, 2023, the Sanford Police Officers' Pension Fund's Sawgrass Asset Management Diversified Large Growth Equity portfolio was valued at \$5,485,863, a decrease of \$21,236 from the March ending value of \$5,507,099. Last quarter, the account recorded a net withdrawal of \$560,000, which overshadowed the fund's net investment return of \$538,764. Income receipts totaling \$18,586 and realized and unrealized capital gains of \$520,178 combined to produce the portfolio's net investment return.

## **RELATIVE PERFORMANCE**

During the second quarter, the Sawgrass Asset Management Diversified Large Growth Equity portfolio gained 10.4%, which was 2.4% below the Russell 1000 Growth Index's return of 12.8% and ranked in the 62nd percentile of the Large Cap Growth universe. Over the trailing year, the portfolio returned 21.1%, which was 6.0% below the benchmark's 27.1% performance, and ranked in the 66th percentile. Since June 2013, the account returned 14.2% per annum and ranked in the 60th percentile. For comparison, the Russell 1000 Growth returned an annualized 15.7% over the same time frame.

## **ANALYSIS**

Last quarter, the Sawgrass portfolio was concentrated in seven of the eleven industry sectors depicted in our analysis. Relative to the Russell 1000 Growth Index, the portfolio was overweight in the Consumer Staples, Financials, Health Care, and Industrials sectors. The Information Technology sector held the most weight but was less concentrated than the index. The Communication Services and Consumer Discretionary sectors were underweight, while Energy, Materials, Real Estate, and Utilities were left vacant.

The portfolio underperformed the Russell 1000 Growth Index in six of the seven invested sectors. The biggest loss was suffered in the heavily weighted Information Technology sector which returned below the benchmark while accounting for over a third of total concentration. The underweight Communication Services and Consumer Discretionary sectors also underperformed, while negative returns in Health Care strained overall performance. Additionally, leaving Materials vacant proved to be a missed opportunity. Positive allocation effects in Financials and Industrials added only minor cushioning, leaving the portfolio with a 260-basis-point deficit below its index counterpart.

SANFORD POLICE OFFICERS' PENSION FUND  
FOREST INVESTMENT ASSOCIATES - GROWTH & VALUE PARTNERS, LP  
PERFORMANCE REVIEW  
JUNE 2023

## **INVESTMENT RETURN**

*This account was funded with an initial contribution of \$12,910 in September 2015. However, a material portion of the committed capital was not allocated until April 2016. Performance for those initial months, based on a relatively minor balance, would be non-meaningful to report, and could potentially distort cumulative returns going forward. For this reason, we have moved the performance start date to March 31, 2016. All data and effects from prior to that date are still captured and reflected in the composite portfolio.*

*An updated statement was unavailable at the time of this report. Performance is based on a market value estimation provided by Forest Investment Advisors.*

On June 30th, 2023, the Sanford Police Officers' Pension Fund's Forest Investment Associates Growth & Value Partners, LP portfolio was valued at \$1,826,065, representing an increase of \$13,898 from the March quarter's ending value of \$1,812,167. Last quarter, the Fund posted withdrawals totaling \$3,771, which offset the portfolio's net investment return of \$17,669. Since there were no income receipts for the second quarter, the portfolio's net investment return figure was the product of net realized and unrealized capital gains totaling \$17,669.

## **RELATIVE PERFORMANCE**

During the second quarter, the Forest Investment Associates Growth & Value Partners, LP account returned 1.0%, which was 0.7% below the NCREIF Timber Index's return of 1.7%. Over the trailing year, the portfolio returned 9.2%, which was 1.9% below the benchmark's 11.1% return. Since March 2016, the Forest Investment Associates Growth & Value Partners, LP portfolio returned 4.5% per annum, while the NCREIF Timber Index returned an annualized 5.1% over the same time frame.
