ECONOMIC ENVIRONMENT

No Impending Pivot

Global markets turned lower as hopes of interest rate cuts were dashed. Central banks around the world reaffirmed their

commitment to fighting inflation, with the Federal Reserve, European Central Bank, and Bank of England all raising interest rates in the quarter. While overall sentiment appears to suggest that a contractionary period would be upcoming, advanced estimates of third quarter GDP from the U.S. Bureau of Economic Analysis increased at an annualized rate of 2.6%.

Inflation, both where it currently stands and where it appears to be going, is now the preeminent topic driving markets. While many seem to be uniquely focused on backward-looking inflation figures, we are starting to see signs of relief looking forward. Unfortunately, we still believe that headline inflation is likely to linger as some of its larger components are “stickier”.

First, housing costs, which represents approximately a third of the consumer price index, is represented by the owner’s equivalent rent (OER). OER is the amount of rent that would need to be paid in order to substitute a currently fully-owned property as a rental. OER is calculated in a survey-like manner,

and typically is lagged by 6-months relative to what the market prevailing rents are. The survey data is collected from about 50,000 landlords or tenants. Real Estate marketplaces and data providers Zillow and Black Knight are beginning to see shelter inflation not only slow, but turn outright deflationary.

Second, Energy prices deflated throughout the third quarter but are still 20% higher than they were in the third quarter of 2021. Furthermore, the year-over-year inflation numbers will include months of double-digit growth for at least the next 9 months. When we overlay this reality with the geopolitical situation in Ukraine, energy crises in Europe, and an energy cartel that is unwilling to increase supply, we are left with a situation where a flattening inflation rate is the best that can be hoped for.

The third major piece is food. Food and beverages make up approximately 15% of the overall inflation figure. All six of the major grocery store food group indexes increased. Additionally, food at employee sites and schools increased by 45% in September alone, as the free school lunch programs that were put in place during COVID expired. The reflexivity of food pricing, higher energy price throughput, suggests that it will take time for the inflation rate of food to decrease.

These three components make up approximately 65% of the overall index. While the data set already shows months of double-digit increases, it seems unlikely that the overall inflation number will turn lower. Therefore, higher inflation, at least in the headline number is likely to persist.

DOMESTIC EQUITIES

Stumbling Rotation

U.S. equities, as measured by the Russell 3000, lost 4.5% in the third quarter. Using the S&P 500 as a proxy, large capitalization companies lost 4.9%. Despite continued losses almost completely

across the board, the magnitude was not near as grim as last quarter. While it was difficult to find reprieve, the Consumer Discretionary and Energy market sectors solely managed to deliver positive returns. The demand of the U.S. consumer remained strong, and the outlook for energy prices has not eased as global political tensions remain high. Consumer Discretionary and Energy were up 4.4% and 2.4%, respectively.

Of the remaining sectors, Communication Services and Real Estate were the worst performers, both down double digits. Large telecom firms like Verizon, Comcast, and AT&T each lost about a quarter of their valuation, with the sector overall dropping by 12.7%. The Real Estate (down 11.0%) outlook remains gloomy as interest rates steepen and buyers drop out of the prospective pool. Energy remains as the only sector to deliver positive returns year to date (+34.9%).

across the board, the magnitude was not near as grim as last quarter. While it was difficult to find reprieve, the Consumer Discretionary and Energy market sectors solely managed to deliver positive

The market preference towards Value companies from the last few quarters did not hold as well in Q3, as Growth stocks delivered relative outperformance.

Markets favored smaller capitalization stocks; the larger you were this quarter, the harder you fell. Using Russell indices as a proxy: small-capitalization stocks lost 2.2%, mid-capitalization stocks lost 3.4%, and large-capitalization stocks lost 4.9%.

INTERNATIONAL EQUITIES

Continued Downturn

International markets continued their fall in the third quarter. The MSCI All Country World ex. US index, which broadly tracks the global markets excluding the United States, lost 9.8%. Growth indices outpaced Value in the quarter, but both sustained losses.

In developed markets, the MSCI EAFE lost 9.3%. All 21 of the constituent countries in the index had negative returns for the second quarter in a row. The typical concerns regarding geopolitics, potential energy shortages, and runaway

inflation all remained. The lowlights include posturing towards nuclear weaponry, pipeline explosions, and 10% eurozone inflation. Germany was among the biggest decliners again, falling

12.6%. This brings the German equities year-to-date loss to nearly 40%. Developed Pacific equities have continued to act as a bulwark against broader losses. The EAFE Pacific index outperformed the broader index by 1.4% in the quarter.

Emerging markets lost 11.4% this quarter. The Latin American

markets of Colombia, Peru, and Brazil, among the worst performers in Q2, were a lone bright spot, returning +3.7%. Brazil in particular was up 8.7%, as growth and inflation improved. Highly growth-sensitive Asian markets, such

as South Korea and Taiwan, suffered, as the outlook for global trade deteriorated further. Emerging European countries suffered for the same reason as their developed peers – Russian escalation, energy insecurity, and accelerating inflation.

BOND MARKET

Unsafe Safety

Fixed income markets continued to fall in the third quarter. The Federal Reserve further hiked interest rates, which they will keep doing until they are satisfied with inflation numbers. Out of the 76 bond indices we track, only one saw positive returns, Short Term Floating Rate Notes.

The Bloomberg U.S. Aggregate Index, an index that tracks the broad investable US fixed income market, lost 4.8%. This

continues the historically poor performance for the asset class, and now brings down the year-to-date return below -14.6%.

Global bonds, using the Bloomberg Global Aggregate as a proxy, performed worse than their U.S. counterparts, losing 8.9% this quarter.

Shorter term bonds performed better than their longer-term counterparts once again. The 1-3 Gov Credit only lost 1.5%, while Long Gov/Credit lost 9.0%.

CASH EQUIVALENTS

Slightly Higher

The three-month T-Bill returned 0.10% for the third quarter. This is the 59th quarter in a row that return has been less than 75 basis points.

Nominal return expectations for cash have moved up relative to the last few years. 3-month treasury notes are now yielding 3.45%.

SANFORD POLICE OFFICERS' PENSION FUND
SAWGRASS ASSET MANAGEMENT - DIVERSIFIED LARGE GROWTH EQUITY
PERFORMANCE REVIEW
SEPTEMBER 2022

INVESTMENT RETURN

On September 30th, 2022, the Sanford Police Officers' Pension Fund's Sawgrass Asset Management Diversified Large Growth Equity portfolio was valued at \$4,929,782, a decrease of \$249,826 from the June ending value of \$5,179,608. Last quarter, the account recorded no net contributions or withdrawals, while recording a net investment loss for the quarter of \$249,826. Net investment loss was composed of income receipts totaling \$18,686 and \$268,512 in net realized and unrealized capital losses.

RELATIVE PERFORMANCE

For the third quarter, the Sawgrass Asset Management Diversified Large Growth Equity portfolio returned -4.8%, which was 1.2% below the Russell 1000 Growth Index's return of -3.6% and ranked in the 65th percentile of the Large Cap Growth universe. Over the trailing year, this portfolio returned -12.3%, which was 10.3% greater than the benchmark's -22.6% return, ranking in the 7th percentile. Since September 2012, the account returned 12.8% on an annualized basis and ranked in the 47th percentile. The Russell 1000 Growth returned an annualized 13.7% over the same time frame.

ANALYSIS

Last quarter, the Sawgrass portfolio was concentrated in eight of the eleven industry sectors depicted in our analysis. Relative to the Russell 1000 Growth Index, the portfolio was overweight in the Communication Services, Consumer Staples, Financials, Health Care, and Industrials sectors. The Information Technology sector held the most weight but was less concentrated than the index. The Energy, Real Estate, and Utilities sectors were vacant.

The portfolio underperformed in six of the eight invested sectors. Among the poorest performing sectors last quarter include Consumer Discretionary and the overweighted Communication Services and Health Care sectors, together accounting for almost two-fifths of the portfolio's concentration. Losses were suffered elsewhere due to underperformance in Industrials and Financials, as well as vacancy in Energy. While the portfolio benefitted from its underweighted concentration in Information Technology and stock selection in Consumer Staples, the portfolio finished 120 basis points below its index counterpart.

SANFORD POLICE OFFICERS' PENSION FUND
GW&K - SMALL CAP CORE
PERFORMANCE REVIEW
SEPTEMBER 2022

INVESTMENT RETURN

On September 30th, 2022, the Sanford Police Officers' Pension Fund's GW&K Small Cap Core portfolio was valued at \$2,551,380, a decrease of \$98,481 from the June ending value of \$2,649,861. Last quarter, the account recorded no net contributions or withdrawals, while recording a net investment loss for the quarter of \$98,481. Since there were no income receipts for the third quarter, net investment losses were the result of capital losses (realized and unrealized).

RELATIVE PERFORMANCE

During the third quarter, the GW&K Small Cap Core portfolio lost 3.5%, which was 1.3% less than the Russell 2000 Index's return of -2.2% and ranked in the 61st percentile of the Small Cap Core universe. Over the trailing year, the portfolio returned -19.7%, which was 3.8% greater than the benchmark's -23.5% performance, and ranked in the 51st percentile. Since March 2021, the account returned -11.2% per annum and ranked in the 42nd percentile. For comparison, the Russell 2000 returned an annualized -16.5% over the same time frame.

ANALYSIS

At quarter end, the GW&K Small Cap Core portfolio was invested in ten of the eleven sectors in our analysis. Relative to the Russell 2000 index, the portfolio was overweight in the Consumer Discretionary, Health Care, Industrials, and Materials sectors, while underweight in Energy, Information Technology, and Real Estate. The Communication Services sector was left vacant.

Last quarter, the portfolio underperformed the Russell 2000 index in seven of the ten invested sectors. The worst performing sector was the heavily weighted Health Care sector, which returned below the benchmark by a considerable margin. Losses were also suffered in Financials and Consumer Discretionary, together accounting for almost a third of the portfolio's concentration. Despite outperformance from Information Technology and Real Estate, these benefits were too slight to curb the portfolio's 130 basis point deficit compared to its index counterpart.

SANFORD POLICE OFFICERS' PENSION FUND
FOREST INVESTMENT ASSOCIATES - GROWTH & VALUE PARTNERS, LP
PERFORMANCE REVIEW
SEPTEMBER 2022

INVESTMENT RETURN

This account was funded with an initial contribution of \$12,910 in September 2015. However, a material portion of the committed capital was not allocated until April 2016. Performance for those initial months, based on a relatively minor balance, would be non-meaningful to report, and could potentially distort cumulative returns going forward. For this reason, we have moved the performance start date to March 31, 2016. All data and effects from prior to that date are still captured and reflected in the composite portfolio.

An updated statement was unavailable at the time of this report. Performance is based on a market value estimation provided by Forest Investment Advisors.
