**ATTACHMENT 3-2  
REVISED GRANT WORK PLAN**

**PROJECT TITLE:** Sanford Nutrient Reduction at Lake Jesup and Lake Monroe

**PROJECT LOCATION:** The Project will be located in the City of Sanford within Seminole County; Lat/Long (28.8144, -81.2685).

**PROJECT BACKGROUND:** Improvements will eliminate surcharging of wastewater infrastructure for 25-year critical events and reduce 100-year critical event flooding from discharging into Lake Monroe. This project will result in the reduction of infiltration and inflow (I/I) of stormwater by improving aged sewer system infrastructure and reducing the impact on the wastewater treatment plant. Ongoing I/I evaluation has identified some of the contributing areas that require immediate attention. The I/I evaluation identified over 370 brick manholes with severe I/I that require replacement or rehabilitation, in addition to miles of degraded pipeline requiring rehab.

**PROJECT DESCRIPTION:** The City of Sanford (Grantee) will replace or rehabilitate approximately 370 brick manholes and degraded pipeline within the sewer system. The Grantee will also complete I/I evaluations as part of the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

**TASKS:** All documentation should be submitted electronically unless otherwise indicated and should be submitted prior to the expiration of the grant agreement.

**Task 1: Project Management**

**Deliverables:** The Grantee will perform project management related to Sanford Nutrient Reduction at Lake Jesup and Lake Monroe project, to include field engineering services, construction observation and inspections, site meetings with construction contractor(s) and design professionals, and overall construction coordination and supervision.

**Documentation:** The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

## **Task 2: Construction**

**Deliverables:** The Grantee will construct Sanford Nutrient Reduction at Lake Jesup and Lake Monroe in accordance with the final design. The Grantee will submit through the Department's GIS web-interface data collection tool, parcel-level data identifying collection system extensions; lift stations and other infrastructure associated with the grant; and both the parcels connected to sewer and the parcels where sewer has been made available for connection but not yet connected along with associated grant information.

**Documentation:** The Grantee will submit: 1) a copy of the final design; and 2) a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. For the final documentation, the Grantee will also submit: 3) an email from the Department's GIS web-interface data collection tool, confirming that data for the project has been submitted. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

## **Task 3: Study**

**Deliverables:** The Grantee will complete a study to complete I/I evaluation(s) of data from manhole monitoring and an evaluation of pump runs to identify I/I locations.

**Documentation:** The Grantee will submit an I/I Evaluation Report(s) containing the information and/or data completed to date as described in the Deliverables.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

**PROJECT TIMELINE & BUDGET DETAIL:** The tasks must be completed by the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

<b>Task No.</b>	<b>Task Title</b>	<b>Budget Category</b>	<b>Grant Amount</b>	<b>Task Start Date</b>	<b>Task End Date</b>
1	Project Management	Contractual Services	\$415,000	07/01/2023	03/31/2029

Note that, per Section 8 of Attachment 1 of the Agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.

**CITY COMMISSION MEMORANDUM 25-280**  
**DECEMBER 8, 2025, AGENDA**

**TO:** Honorable Mayor and Members of the City Commission  
**PREPARED BY:** Michael Cannon P.E., Utilities Engineering Manager  
**SUBMITTED BY:** Norton N. Bonaparte, Jr. ICMA-CM, City Manager  
**SUBJECT:** Resolution No. 2025-3432 Accepting and Approving Grant Agreement Amendment No. 2; Florida Department of Environmental Protection; Nutrient Reduction Relating to Lake Jesup And Lake Monroe; \$2,500,000; Approval Of Resolution No. 2025-3433 Amending The City Budget

**SYNOPSIS:**

Requesting approval of Resolution No. 2025-3432 to approve the Grant Agreement Amendment No. 2 relating to Florida Department of Environmental Protection (FDEP) nutrient reduction regarding Lake Jesup and Lake Monroe as well as approval of the associated Resolution No. 2025-3433 providing for an amendment to the City budget.

**FISCAL/STAFFING STATEMENT:**

The proposed FDEP Grant Agreement Amendment No. 2 would provide \$2,500,000 of funding for the continuation of the program for nutrient reduction relating to Lake Jesup and Lake Monroe. This effort represents the efforts of the City Manager to obtain funding for beneficial programs and projects from non-City derived revenue sources.

**BACKGROUND:**

The meandering and scenic St. Johns River is Florida's longest river. The 310-mile waterway includes upper, middle and lower basins, and flows from Indian River County northward to its mouth where it empties into the Atlantic Ocean east of Jacksonville.

The Middle St. Johns River Basin has an important role in the water cycle and Lakes Jesup and Lake Monroe are two areas abutting the City where the St. Johns River widens. Water quality of the two lakes has been adversely affected over the years by nutrient contamination associated with urban and agricultural land uses and the use of fertilizers, septic tanks and urban stormwater, which occur and contribute to the long-term degradation of water quality. Damaged ecosystems can be repaired by reducing the amount of nutrient exposure in the environment. The Middle St. Johns River Basin is highly impacted by nutrient pollution.

Lake Jesup, the largest lake in Seminole County, and Lake Monroe, which abuts and is located within the City Limits of the City of Sanford, are hydrologically complex systems with large, urbanized watersheds. The lakes are shallow, with Lake Jesup having a particularly low flushing rate. Lake Jesup drains a 150-square-mile watershed, including portions of Oviedo, Sanford, Winter Park, Casselberry, Maitland, Longwood, Altamonte Springs, Lake Mary, Eatonville, Winter Springs and Orlando (in both Seminole and Orange counties) and it flows northward into the St. Johns River and Lake Monroe.

Enhancing the water quality of Lake Jesup and Lake Monroe will not only benefit the environment and protect valuable natural resources; but will also enhance the quality of life for those who live in, own property in, visit or recreate in the City.

The City's efforts to continually work in collaboration with the FDEP and other agencies to abate the nutrient levels of Lake Monroe and Lake Jesup are rewarded when grants such as the one that is the subject of this agenda item are awarded to the City. FDEP Agreement Number LPA0554 provides for a grant of \$2,500,000 to the City under Line-Item Budget Number 1555, FY 2025 - 2026, General Appropriations Act as enacted by the Florida Legislature as part of its annual budgetary activities.

Also, a budget amendment resolution, Resolution No. 2025-3433, is needed to incorporate the \$2,500,000 into the City budget to implement the projects and programs under the Grant Agreement with the FDEP.

### **LEGAL REVIEW:**

The Assistant City Attorney has assisted in this matter and has no legal objection subject to all procurement activities being accomplished in accordance with the requirements of controlling Florida law and the City's Purchasing Policies and Procedures.

### **RECOMMENDATION:**

City staff recommends that the City Commission adopt Resolution No. 2025-3432 approving the FDEP Grant Agreement pertaining to nutrient reduction relating to Lake Jesup and Lake Monroe and Resolution No. 2025-3433 approving the requisite budget amendment and associated procurement activities.

### **SUGGESTED MOTION:**

"I move to approve the two resolutions, as proposed."
